SOFTWARE ENGINEER

Experienced in Ruby, JavaScript, Ruby on Rails, and React, I offer a unique blend of technical expertise and customer service skills honed in a fast-paced environment over 9 years at Starbucks. My strengths include time management, leadership, and inventory management. Committed to continuous learning, I am eager to adapt to new technologies and enhance my skill set.

TECHNICAL SKILLS

Javascript, React, Ruby, Ruby on Rails, SQL, PostgreSQL, HTML, CSS

TECHNICAL PROJECTS

Cool Cat Store - https://github.com/JamesSalcedo001/cool_cat_store | https://youtu.be/RcYWU72wMy0
Description: E-commerce app built with React and Rails, showcasing many-to-many data relationships, CRUD features, and API integrations.
- Implemented a many-to-many relationship, using four different models to organize data efficiently.
- Utilized Redux for efficient state management, enhancing application performance.
- Employed Vite for accelerated development and simpler bundling compared to Create React App.
- Integrated Stripe API for secure payment processing and product management.

Space Base- The Social App - https://github.com/JamesSalcedo001/social_app | https://youtu.be/C70Eht4H9Y8
- Description: Social media application designed to demonstrate mastery of React and Rails in building interactive platforms. The project features CRUD operations, multiple data models, and secure authentication.
  - Enforced Active Record and controller validations, offering robust error handling and response management.
  - Leveraged useContext to maintain the logged-in user state, eliminating the need for prop drilling.
  - Facilitated user authentication, enabling secure sign-up, login, and logout functionalities.
